

Annex 1 - The processing of personal data

The subject/nature and purpose of the processing: the digital receipt and storage of customer data. RouteLogic processes data that customers enter themselves on the website of RouteLogic. Which happens when completing a form on routelogic.nl for e.g. following of a demonstration, when creating an account or when subscribing to the newsletter.

RouteLogic also processes customer data in the account environment at app.routelogic.io. (including employees and data of (end) customers) This is done to generate (delivery) routes generate. It concerns (this may vary per situation) the following personal data: company name, first and last name, VAT number, bank account number, invoice and/or delivery address, delivery photos, signatures, e-mail and telephone number.

The purpose of storing/processing this data is to inform the submitter about the services and/or products of processing party (think of sending invoices) or keeping up to date with developments within the company of the processor and/or communicating offers. The data of the (end) customer is only used for the purpose for which it is intended, namely optimising and planning of routes. This data will not be shared with third parties and will be anonymised by default 30 days after completion of the assignment. On the other hand, the purpose of the processing of personal data is the execution of the order given to RouteLogic assignment, through which it executes the agreement.

This processor agreement applies to all products and services of PROCESSOR.

Nature and purpose of processing

The nature of the processing is to store data and make it available for use to RESPONSIBLE, including by means of the product described in Appendix 1.
